

Safe Hearth Heater

Portable and convenient, Safe Hearth with built-in ActivePure technology utilizes a PTC heating element constructed from ceramic stone and formed to safely maximize heating efficiency.

Safe Hearth combines everything you want in a heater: energy-efficiency, effectiveness, and safety, with ActivePure technology to scrub air as it is heated. The PTC heating element is made from ceramic stone to heat quickly and efficiently. The Safe Hearth is unlike any other portable heater, because it actually cleans as it heats, delivering the exclusive benefits of ActivePure into a warm, comfortable environment.

Natural odor and contaminant eliminating processes and warm, clean, radiant heat are delivered throughout any room, effectively and conveniently with the safety and security that only comes from Safe Hearth.

As ActivePure Technology works to remove odors and “scrub” the air being heated, Safe Hearth’s heating plate gently and evenly warms the area, providing comfort and peace of mind during cold nights and chilly days.

The PTC heating element is made from ceramic stone and heats quickly while being energy efficient. It is also durable, providing a longer life for the heating element. Unlike these other heaters, Safe Hearth provides a quiet, even heat that fills the room.

Safe Hearth offers an economical way to put safe heating just where it’s needed, allowing a lower thermostat setting to help save on heating bills. Add to that a long life-expectancy, low maintenance and safety features to make it safer for your home, your children and your pets, it’s easy to see why Safe Hearth is a better choice for personal heating!

Benefits:

- Safety features prevent fires and make it safer for children and pets
- Simple design for simple use and long life
- Doesn’t emit harmful fumes or carbon monoxide
- An energy efficient way to heat your environment
- Provides peace of mind for a safe and warm home

Features:

Safe Hearth includes many features designed for comfort, safety and peace of mind - exactly what’s needed in smarter, better space heater.

- Specially designed PTC heating element made from ceramic stone.
- Includes tip-over safety feature to automatically turn off unit if it is knocked over.
- If the internal components reach a high temperature, the heater will automatically shut off.
- Auto-lock prevents children from changing settings on the heater.
- Soft coating on the grate prevents burns if accidentally touched.
- Runs quieter than standard furnaces.
- Heats evenly with a comfortable, balanced heat.
- Output rated at 5,100 BTU.
- Exclusive ActivePure Technology is Certified Space Technology and sends “scrubbers” to remove contaminants from surfaces.
- Includes an easy to use and clean washable filter and the internal fan is made of metal components for long life.
- Includes a remote control for easy operation.

Specifications:

Technology: PTC heating element, ActivePure (RCI) cell

Safety Features: Overheat safety features, Tip-over safety feature, Auto-lock feature

Power Usage: 120 Volts DC, 1500 watts

Lint Screens & Filters: Washable rear filter

Output: 5,100 BTU

Coverage: 1000 sq. ft.

Size: 16 4/5' high x 13' wide x 16 3/5' deep

Weight: 22 lbs
