

Laundry Pure

We turned to nature to come up with a better way to do laundry. Laundry Pure is better for your laundry, better for your family and better for the environment...and it will help you save money too!

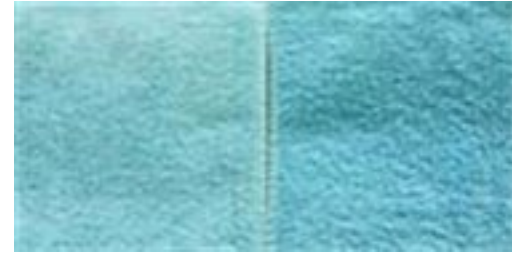

Laundry Pure incorporates the power of our revolutionary, exclusive Active Pure Technology with the cleaning action of activated oxygen to lift dirt and grime away from the fibers of fabric and prevent the growth of odor-causing bacteria. Available for either front load or top load washers, Laundry Pure is an amazingly effective cold water laundry system for residential use.

Laundry Pure ensures that you aren't absorbing anything from the fabrics you touch. Avoid the allergic reactions that can be caused by detergents by using the Laundry Pure to clean your clothes. Laundry washed in Laundry Pure is softer, fluffier, and lasts longer!

Eliminating detergent means no residue and abrasives to weigh down and wear out fabrics. Washing in cold water reduces the weekly demand on the household water heater and the energy bill.

Benefits:

- Eliminates the need for detergents and fabric softener.
- Prevents the growth of odors and contaminants without bleach or hot water.
- Helps eliminate allergic reactions due to detergent residue.
- Keeps colors brighter and whites whiter.
- Gets towels softer and fluffier and helps cloths last longer.

Features:

- Maintenance-free model with fail-safe leak protection.
- Protects your home – Designed and built for reliability and durability.
- Installs on all brands and models.
- Available for both front load and top load washers.
